

## Staff and Student Mobility

The [Department of Communication Therapy](#) has been involved in staff and student mobility at European and international level ever since UM joined the Erasmus programme. Several bilateral agreements have been signed with highly reputed educational institutions, and dedicated departmental coordinators are appointed to support participating students.

Staff mobility has enriched inter-departmental cooperation and built strong relationships, to the extent that members of the Department have been invited to examine dissertations, review courses as external examiners, write joint research proposals leading to the award of research grants, and assist in the development of new courses.
